

# Advanced Standing Precedent Request Form

## Section A

This document is to be used for the purpose of creating an Advanced Standing (CRL) Precedent in Student One and will be made available in the CRL web search. When complete please e-mail to [rplprecedents@curtin.edu.au](mailto:rplprecedents@curtin.edu.au). The relevant processing will endeavour to create the precedent within ten working days.

**Please answer all questions and sections of this form before forwarding.**

CRL Agreement required within 5 working days - Due date for assessment: \_\_\_\_\_

- Copy of prior learning course structure used to map the CRL to Curtin Units
- Copy of the unit learning outcomes/syllabus and assessment used to make the determination
- Copy of the contract if the agreement is part of an Articulation Agreement or a CRL evaluation Letter

## 6 Precedent Approval

\_\_\_\_\_  
Name and signature of  
Head of Area

\_\_\_\_\_  
Name and signature of  
Director of Student Engagement

\_\_\_\_\_  
Date Approved

\_\_\_\_\_  
Date Approved

## Competitive Analysis (*Marketing Strategy - if applicable*)

The below table outlines key competitor similar study packages/courses and the advanced standing awarded by those competitors. This data should be taken into consideration when establishing the maximum advanced standing credit value for this precedent.

| Competitor Institution | Course | Advanced Standing Credit Value | Remaining Course Duration Outstanding |
|------------------------|--------|--------------------------------|---------------------------------------|
|                        |        |                                |                                       |
|                        |        |                                |                                       |
|                        |        |                                |                                       |
|                        |        |                                |                                       |
|                        |        |                                |                                       |
|                        |        |                                |                                       |
