The ICE Project

Building on Griffith University’s highly successful ‘immersion’ project with the Winanjikari Music Centre, this national project has aimed to make similar projects available to undergraduate students at The University of Sydney, University of Western Sydney and Curtin University.

At Curtin this has entailed forming a new service learning opportunity for Humanities students and staff. Together with Indigenous project partners we have worked as participant researchers utilising an action research approach. At the showcase we will share the process and some of the project stories as well as film and reflective pieces.
